VOL. 1 GLENDALE (Los Angeles Postoffice) CALIFORNIA, SATURDAY, SEPTEMBER 28, 1918 NO. 43

THE WHITE HOUSE
WASHINGTON

Again the Government comes to the people of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberation of the world may be prosecuted with ever increasing vigor to a victorious conclusion. And it makes the appeal with the greatest confidence because it knows that every day it is becoming clearer and clearer to thinking men throughout the natian that the winning of the war is an essential investment. The money that is held back now will be of little use or value if the war is not won and the selfish masters of Germany are permitted to dictate what America may and may not do. Men in America, besides, have from the first until now dedicated both their lives and their fortunes to the vindication and maintenance of the great principles and objects for which our Government was set up. They will not fail now to show the world for what their wealth was intended.

To relieve themselves of an unnecessary tax burden, the people of Alameda County are asking the approval of the voters of the State for a constitutional amendment which is to appear as "No. 5" on the November ballot.

It relates to the consolidation of city and county government and applies only to Alameda County, referring only to any county organized under the general law, and having, at the time this section takes effect, a population of two hundred thousand or over. Los Angeles and San Francisco counties are excepted from its operation, Los Angeles because it is operating under a county charter, and San Francisco because it is already a consolidated city and county.

The ratification of the amendment is imperative to the proper development of this community and to release $1,000,000 per year, now expended in unnecessary local governmental operations, which savings could, if necessary, be applied to present or after war reconstruction and taxation.

Very truly yours,
TAX ASSOCIATION OF ALAMEDA COUNTY.

COMPULSORY HEALTH INSURANCE

Opposition to the scheme of Compulsory Health Insurance—more accurately known by its original Prussian name of "Reichskrankenversicherung,"—has been voiced in a new quarter. This time it is the Associated Fraternal Societies of California, representing nearly 500,000 members in practically all the lodge organizations of this state, which met in convention at San Francisco on September 21 and unanimously adopted strong opposing resolutions.

Underlying this drastic action of the central lodge organization is the admitted fact that State Compulsory Health Insurance would make it impossible for lodges, unions and other bodies with sick-benefit features, to exist. In the threatening language of the State Social Insurance Commission's report, all such societies will be "given a place under a State system." This domination by a huge political machine will kill their identity as voluntary societies, while the State's compulsory assessment for its own insurance will greatly threaten the lodges' financial support.

LIBERTY LOAN OPENS TODAY

"Two big Liberty Loan War Tanks will tour Southern California during the Fourth Liberty Loan Campaign from September 28th to October 19th instead of one," is the announcement of Harold Janss, Director of Publicity for the Southern California Liberty Loan State Central Committee.

So many cities and communities in Southern California telephoned, wired and wrote Dirctor Janss for a visit of the tank that the Liberty Loan Committee immediately decided to have two of them. These tanks will be known as Tank "Liberty" and Tank "Democracy." It has not yet been decided just whether "Liberty" or "Democracy" will visit this city, but as both tanks are built on the same lines, carry a similar military escort and the same equipment, it will not matter much which one arrives to boost our campaign.

Director Janss announces that each tank will carry a heavy Browning machine gun, spot lights and flood lights for use at night, a fully equipped chorus program, and be under guard of four of Uncle Sam's own boys. Each one of these tanks has been allotted a quota of $1,500,000, which makes $3,000,000 for the two tanks. In Central Park, Los Angeles, is another monster tank erected for Liberty Loan work and upon which a similar quota has been placed. The outside tanks will strive to outdo the big tank in Los Angeles. Moving picture stars will tell the story of Uncle Sam's Fourth Liberty Loan Bonds from the top of the tank. It will be an opportunity for you to see one of your favorites of filmdom.

HOUSE-NUMBERING SUGGESTION

In making the change of numbering according to the recent orders, it is suggested that the old number be plainly marked or chalked near the new one. In this way all persons not knowing the changed or new number will be able to find desired locations.

PROCEEDINGS OF BOARD OF TRUSTEES

The Board assembled at 8:20 p. m., all members present. The minutes of the last meeting were read and approved.

Mr. Nichols appeared before the Board and stated that he is engaged in remodeling a building in Verdugo Canyon and has the work about completed, but finds that he is not permitted under restrictions of the city ordinance to put in a cess pool, the excavation for which he has already made. The matter was discussed at some length, but no action was taken.

A communication was read from Captain W. B. Kelly, a member of the Military Instruction committee, requesting that the public service department be instructed to install a temporary lighting system on the high school grounds to be used on drilling nights. On motion of Trustee Henry, the request was granted and the manager of the public service department was instructed to put in the necessary equipment, all voting aye.

A request was presented to the Board for permission to hunt on the ranch of C. D. Thom, from Dr. T. C. Young. On motion of Trustee Henry, the same was granted.

An application was received from C. H. Taylor for permission to operate a motor car in the Jitney business, which having the approval of the City Manager and the police department was ordered to be granted.

A communication signed by the various lumber yards and hardware concerns of the city was read requesting that the section of the building ordinance requiring permits to be taken out for any structure, the cost of which exceeds $20.00 be changed so as to make the minimum $75.00. On motion of Trustee Shaw, the City Attorney was instructed to draw up an ordinance amending the building ordinance as requested in the communication.

The City Manager reported that owing to the postponement of the application of ruling by the Capital Issues Committee it was not necessary to apply oil to Harvard Street on Sunday last.

The manager of the public service department presented a request from the Pacific Telephone and Telegraph Co. for permission to do certain underground work, which, on motion of Trustee Henry, was granted.

At 9:30 p. m. the Board took a recess. The Board reconvened at 9:50, all members present.

Trustee Muhleman reported for the committee appointed at the last meeting to interview the officials of the Pacific Electric Railway Company regarding the Glendale local rates to the effect that the committee had presented its case, and the matter is now being considered.

A communication addressed to the City Manager was filed with the Board from the Glendale & Montrose Railway Company, stating that the cost of operating the company's lines has increased to such an extent that it has become necessary to consider a curtailment of the service. On motion of Trustee Muhleman it was expressed as the sense of the Board that the Board does not accede to this request.

On motion of Trustee Henry, the City Manager was instructed to secure a flag for the branch city hall in Tropico District, all voting aye.

GLENDALE TO INSTALL K. C. LODGE SUNDAY

Preparations are complete for the installation of the Knights of Columbus Council in Glendale tomorrow (Sunday).

The Naval band from San Pedro, followed by the representatives of the councils of Southern California from San Diego to Santa Barbara estimated at 1000 will lead the parade. This will be followed by the local Council. The procession will form at the Elks' home and proceed to the High School grounds, where an open-air military mass and church services will be held at 10:30 o'clock a. m. Fifty sailors from San Pedro will also be in line.

Rev. Charles Raley, chaplain of the Naval Reserve Band, will preach a sermon.

At 1 o'clock the degree work will be conferred in the Central building, Broadway near Brand Boulevard, and the following officers will be installed:

Peter L. Ferry, grand knight; Henry M. Doll, deputy grand knight; F. H. Huesman, financial secretary; J. W. Andree, treasurer; J. H. Mellish, lecturer; J. W. Blackman, advocate; Leo McMahon, warden; Rev. J. S. O'Neill, chaplain; J. N. Thomas, inside guard; J. F. Quinn, outside Guard; W. H. Kerr, L. F. Wright and A. P. McDonnell, trustees.

A banquet will be given at the Elks' home at 7 o'clock, after which addresses will be made by Rev. Charles Raley on the United States Navy; Rev. Henry Walsh, chaplain at Fort MacArthur, on the United States Army; Mattison B. Jones, of Glendale, on Fraternity; and Joseph Ford, of Los Angeles, To the Ladies.

The principal address will be by Joseph Scott, who will tell his experiences in France, from which place he has just returned.

A RAZOR CURIOSITY

All sorts and conditions of razors are being resurrected and brought to F. H. Walker, who has opened up a razor grinding shop on West Broadway, for sharpening and repairs. A curious specimen was one with an immense blade, labeled "Skinner." The thick back was engraved "magum bonum," and it had a home-made handle. This razor has been in constant use by its aged owner, who says it was also used by his father, which would make it at least 100 years old. Mr. Walker is commissioned to put on a new handle, a somewhat difficult task, owing to its size, and it then should be good for several more generations.

GLENDALE BOY GETS COMMISSION

Donald H. Packer, son of Mr. and Mrs. Stephen C. Packer of Riverdale Drive, was one of the 50 selected from 225 at the specialists training school at Fort Scott to receive a commission as second lieutenant.

One hundred of these newly commissioned officers will soon go overseas, and Lieutenant Packer, who is barely 21 years of age, is the youngest of the number.

He is a graduate of the class of 1914 of the Union High School. Afterwards he passed three years at the University of Southern California, and at that time enlisted as a private in the Coast Artillery at Fort MacArthur, where he was made a corporal, and received a medal for marksmanship.

THREE DAYS OF CARNIVAL

On October 4, 5 and 6 (Friday, Saturday and Sunday), Venice will stage a three-day carnival that promises plenty of entertainment for its patrons. Friday night the opening of the carnival will be loudly proclaimed with a battery of bombs, a parade along the Ocean Front walk, plenty of red and green fire, bands of music, special dancing acts and the opening of the Italian Bazaar and '49 camp on the pier.

In the Arcade, where the Italian Bazaar will hold forth, the large hall will be filled with various booths where every conceivable form of merchandise will be auctioned off. There will be several shows in progress, some beautiful articles will be given on the gift distribution and also a part devoted to the old-time forty-nine camp where the sleeping tiger will awaken for a few short days. The proceeds of the bazaar will go to the Italian Associated Charities.

On Saturday the Domino and Yama Yama girls will be the center of attraction, serpentine and confetti battles, balloon showers, free souvenirs at the dance pavilion, the Hawaiian Troupe at the band plaza, joker bands and funny clowns will keep the fun at a high pitch. The '49 camp will have some new features and a special grand opera trio will be presented at 10 o'clock in the evening.

Sunday will have many delightful events, starting from the band concert at 2:30 and continuing through until midnight. The night sea battle at 9 o'clock promises to outdo all of the spectular events that Venice has staged in the past. A big submarine, two torpedo boats, two aeroplanes, land batteries and a cruiser will engage in a regular sea fight off the Venice Pier. The fight will be a continuous succession of flashing projectiles, bombs and mortars, ending with the blowing up and sinking of the submarine.

Three gala days, a combination of comical comedy intermingled with some sterling mardi gras features that insures topnotch entertainment to our patrons.

PERMITS FOR BUILDING

All permits for building must be referred to H. W. Keller, Chairman Priorities Committee of the Council of Defense, at their office, 719 South Hill Street. This was the announcement today of Chairman of Publicity Harold Janss, who further stated that all applications must be in affidavit form, with complete plans and specifications attached, and also information designating the use of the contemplated building or buildings. This does not refer to repairs or alterations to buildings up to an amount of $2500.

This ruling is following the recent instructions from the National Government issued for the conservation of building materials and the elimination of unnecesary and non-essential construction work today.

Do It the First Day

By Wilbur D. Nesbit

You *know* you are going to buy Liberty Bonds.
You wouldn't be square with *yourself* if you didn't.
You couldn't take off your hat to the flag with half the sense of *ownership* if you didn't.
You couldn't cheer the marching line of troops with half the *thrill* if you didn't.
You couldn't watch the Jackies go by with half the *pride* if you didn't.
You couldn't glimpse a battleship off the coast with half the *joy* if you didn't.
You couldn't read the war news with half the eager *faith* if you didn't.
You couldn't be 100% *American* if you didn't.

You know the Fourth Liberty Loan starts September 28th.
You know that buying a Liberty Bond isn't making a *gift*.
You know you are simply lending your money to your Government—to the best *friend* you and your mother and wife and sister and daughter have.
You know what *security* is back of your loan—security that means good interest and that your money will be paid back to you.
You know all of that—you know the *business* side as well as the patriotic side of it.

Then, buy *your* Liberty Bonds the very first day of the Loan. Don't wait. Do your thinking beforehand. You don't need to consider it; you don't have to be *argued* into it—you *know* you will buy Liberty Bonds.
Be one of the first to get the *badge of honor*—the Liberty Bond button.
Get *yours* on the first day—September 28th.
You *know* what an example that will set.

Make September 28th *your* Liberty Bond day.
Could you do a better thing right now?

CHILDREN RUN TO SOLDIER PALS AT ARMY MESS CALL

French Tots Share Yankee Soldiers' Rations—Women's War Parts Great

By Mrs. Hazel Pedlar Faulkner

"The little children in this neighborhood have learned to distinguish the mess call.

"Immediately it is sounded, they troup out from every conceivable corner, taking their places around the men, watching with eager, hungry eyes every bite that is dished out. A fellow can't eat his prunes very comfortably with such an audience, and the men here have divided every meal with these little fellows, who are the children of men saving France."

A "home-town" private, one of the Engineers who has been building railarmies in France, sent that message home. He is one of the men who has been dividing his daily ration of soup and beans, of meat and prunes, with the children who are the soul of France.

WOMEN GIVE WHEAT, SONS AND MONEY

American women, everywhere, and Western women second to none, have borne their part in the fight. They have saved their meat and their wheat, they have given their husbands and sons. Their money is going now. In the first, second and third Liberty loans they have invested their dollars. Opportunity to serve has come again. The Government is seeking funds. It is asking for the third of its three-fold need—men, munitions and money.

The hand that rocked the cradle is holding the purse strings in these momentous days. For their boys Western mothers will not withhold the needed gold. America has started on the road to Berlin. The way is a long one, and traveling is difficult. But the journey must be made, and the pilgrims must be equipped.

It is no longer a question of "shall we buy bonds" with American mothers. That was answered when the boys went over there. It is no longer a question of "can we buy bonds." The experience of the first three loans has answered that.

The question for Western women, in company with women all over the land, to answer is "what is the limit to which I can, by sacrifice and saving, by going without and working for,—what is the limit which I can reach?"

CAN'T STOP SHORT OF BERLIN GOAL

It would be a sorry ending of a journey to have America stop short of Berlin. It is inconceivable that our soldiers should stop short of that goal.

Can you, women of the West, pause in the great task which has been set for you? Can you halt for an instant in the face of the country's need?

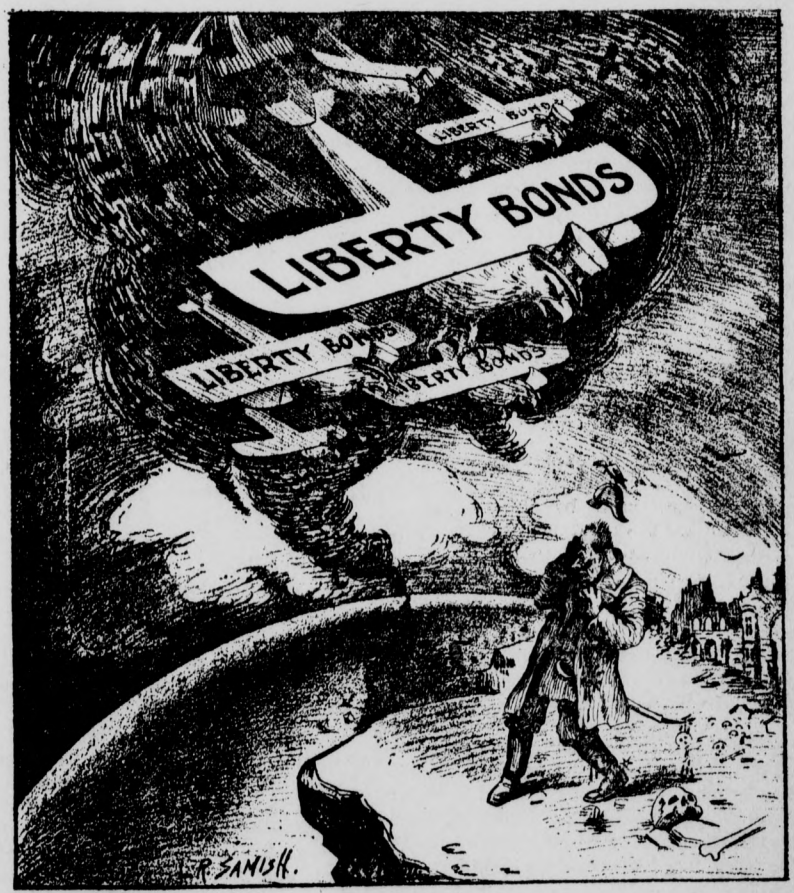
Will all of those planned purchases weigh in the scale with the call which comes ringing across from those plains where the boys are fighting? It is to keep your boy on the march toward the final goal that the Government asks you to lend it your utmost.

"I regret that I have but one life to give for my country," said Nathan Hale, as he ascended the enemy's gallows.

Ours is the task to save lives for our country, to save by lending our all at its request. The Fourth Liberty Loan gives American mothers and sisters a new opportunity to make impossible a regret that they had but one chance to give.

The Fourth Liberty Loan is ours. What is our utmost? The country awaits our answer.

Ruin In Its Wake



"Five Million Men in France!"

If the Americans at Cantigny, at Chateau Thierry, along the Marne and around Soissons, has proved a whirlwind which von Hindenburg could not withstand this year, what will be the German terror when "Forward to Victory" rings out next year to armies that hide the plains.

The rich blood of sacrifice already strengthens the soil of American resolution from which will spring the flower of triumph.

The sacrifice abroad must be met by sacrifice at home. No effort we at home can make will approach the price paid willingly by those who do not return from the battle for Democracy.

FIGHTING WITH FOOD

By DR. RAY LYMAN WILBUR

President of Stanford University.

Endure to the End.

Our problem is to see whether we can grasp the facts, feel the suffering, understand the anxious hearts on the other side. We have got to make up our mind to win this war if Paris is lost, if London is lost. We have got to know what this war means and resolve with all our hearts to see it through. As one of the soldiers who came back said to me, "How dare the Americans talk of peace? What have they done to talk peace? When the soldiers who have fought at the front, watched their comrades die, the soldiers who have been wounded and gone back to fight again, when they talk peace, then it is time to talk it. We know what we are fighting. We have got to see this thing through."

Think of our boys over there, fighting for us today. Think if tomorrow morning they should go to their quartermaster and he should say, "I am sorry that there is little bread this morning; the American people had to have wheat for their bread. There wasn't enough left to send you." What kind of an explaantion can you give your boy when he comes back?

And yet, side by side with our American boys stand the men of France, of Britain, of Belgium, of Italy. They stand there comrades in arms, looking across the same No-Man's Land, facing the same enemy. They are our boys just as much as those we sent over. They are fighting for us, dying for us. What if they go tomorrow and their quartermaster says, "There is no bread, no bacon." What if a French soldier should get a letter from his home saying that the food ration of the family had been cut again because the Americans did not make good?

America the Hope of All.

There is only one answer. It is imperative that we save and send the wheat and other foods absolutely required in Europe. We can not do it unless we stop using them here. We must realize that food is the weapon by which America is to be able to maintain a position in the war long enough to win it.

We have the problem of maintaining the men in that line and back of that line. We must not run any risk. There must be no narrow margins. We must build up reserves here against the lean years. We must see that there is plenty over there so that no matter what happens to the shipping in any month, they are safe.

As our Army increases, more and more men will be drawn from the farms; perhaps we have now passed the peak of production. Harvests are bound to vary with seasonal changes. Our only safe course is to provide enormous reserve stores of staple foods both here and in Europe to meet any emergency. In a later period of the war, in some critical phase, to have to stop in order to devote our energies to farming might be fatal to our final success. There must be no let down in the program of conservation with the new harvest.

Heartened by our success, we must go ahead realizing more than ever our responsibility to those who fight with us and to those who look to us as the only source of food supply to save them from destruction.

We must see that the morale of our men and those who fight with them is kept at high tide. We can do so if they feel our support all the time. By the food-saving program the American people are to keep them all in health and comfort and courage until the final victory.

(The End.)

LIMIT GASOLINE SALE TWELVE HOURS DAILY

Garages and other gasoline and distillate selling and distributing agencies throughout the Pacific Coast have been requested to limit their sales to the hours between 6 a. m. and 6 p. m., to conserve fuel and release man power for the war. Prof. D. M. Folsom, Pacific Coast Fuel Oil Administrator, announced. Many men can be released for army and other war service if this is done, Prof. Folsom said.

The big oil companies already have arranged to close their service stations between 6 p. m. and 6 a. m., for these reasons, beginning October 1, Prof. Folsom said.

The states in Prof. Folsom's jurisdiction are California, Oregon, Washington, Arizona, Nevada, Idaho and Utah.

The public was asked to co-operate in the movement.

EPIGRHYMES:

The old white-haired philosopher—a shoemaker by trade—with reverence closed his well-worn book. "My boy, I'm most afraid to tell you to enlist;" the words low-spoken, to his son, "but if my old friend, Phillips Brooks was right, true Joy is won, and wears a garb called **"HAPPINESS,"** by letting Duty sprout. If that **IS** so, it takes from life all tantalizing doubt; for it is sure **THE NATURAL** and easy thing to do, when we see buds 'most ready to bring joy to me and you, for us to set them in the sun, to do all in our power to help each bud, to reach its goal—God's patient, perfect **FLOWER.** So, in the life **OF** folks like us, let's take a squint and see if **DUTY** isn't trying hard to blossom so that we may gain the sort of happiness for which great men have died—the sort of happiness for which Our Christ was Crucified!"

AT THE PALACE GRAND

The Palace Grand Theatre has the rivilege today of presenting to its atrons a new star, one who is al-eady a famous stage favorite, but ho in this picture makes her first ppearance on the screen. Dainty, vi-acious little Lila Lee will be a wel-ome surprise for lovers of the better motion pictures in her presentation

LILA LEE
in "The Cruise of the Make-Believes"
A Paramount Picture

of "The Cruise of the Make-Believes." In this romantic picture she shows all poor little girls how to sail away to happiness. The ship is made of some old chairs, bits of canvas, spare pieces of lumber and the wheel of brother's express wagon. But it sails! There is a special added attraction of unusual interest, too, being the first American tour of "Italy's Flaming Front," the latest and greatest of official European war pictures. It shows all the amazing episodes of a real battle on land, sea and in the air. Children's matinee at 2:30. Evening shows sharp at 6:45 and 8:45.

For tomorrow, Augustus Thomas's famous play, "On the Quiet," will be shown, starring the great actor, John Barrymore, who was the star in "Raffles." Bob Ridgway went out of Yale a lot faster than he entered, and he carried the best wishes of the faculty for a safe arrival in the Inferno. But he had to finish that course in Yale to get the girl and the twenty million that went with her. That's where he had the job done "on the quiet." Come and see what job. Also a two-reel Mack Sennett Comedy, entitled "His Wife's Friend." It's full of clever stunts. Matinee at 2:30. Evening shows at 6:45 and 8:45.

For Monday, those two popular little stars, Katherine Lee and her sister, Baby Jane Lee, will appear in a roaring, mischievous comedy called "We Should Worry." The funniest and most appealing ever. Also there will be shown Bruce's wonder outdoor pictures. The matinee will start at 2:30, and evening shows at 7 o'clock and at 8:45.

For Tuesday, October 1st, a great new war picture, with a big, special star cast will be shown, giving a vivid picture of the work of German spies in the United States. It is not a picture of fancy, but of fact. The records of the United States Secret Service is filled with just such black and damnable schemes as are engineered by "The Hun Within." See the cunning of the Hun spies, and then rejoice n that swifter, alerter brain of Uncle Sam that checkmates them by night and by day. There is also a Christie Comedy on this program, "Some Cave Man." Matinee at 2:30. Evening shows at 7:00 and 8:45.

For Wednesday, Tom Mix appears in a new, thrilling story, "Mr. Logan, U. S. A." Scorned by the girl he loves because she believes him to be a slacker, he smashes an enemy plot against his country, saves her uncle's life and his mine from destruction, and daringly rescues the girl herself from worse than death. An animal scenic picture and a cartoon comedy will also be shown. Matinee at 2:30. Evening shows at 7:00 and 8:45.

A treat is in store for Glendale on Thursday, October 3, in a picturization of Mary Roberts Rinehart's great story, "The Street of Seven Stars," featuring beautiful little Doris Kenyon. Mrs. Rinehart calls this her most beautiful and artistic story. It is the wholesome story of a young girl violinist and a doctor, who were taught love by an actress who had lost it and by an innocent boy. Also, as on every Thursday, there will be the official Allied War Review. It is a new, one-reel picture on the different was fronts. These are authentic war films taken by the Allied governments. Matinee at 2:30. Evening shows sharp at 7:00 and 8:45.

WAR PROFITS TAX AND EXCESS PROFITS TAX—THE DIFFERENCE

"By a war-profits tax we mean a tax upon profits in excess of those realized before the war.

"By an excess-profits tax we mean a tax upon profits in excess of a given return upon capital.

"The theory of a war-profits tax is to tax profits due to the war.

"The theory of an excess-profits tax is to tax profits over and above a given return on capital. The excess-profits tax falls less heavily on big business than on small business, because big business is generally overcapitalized and small businesses are often undercapitalized.

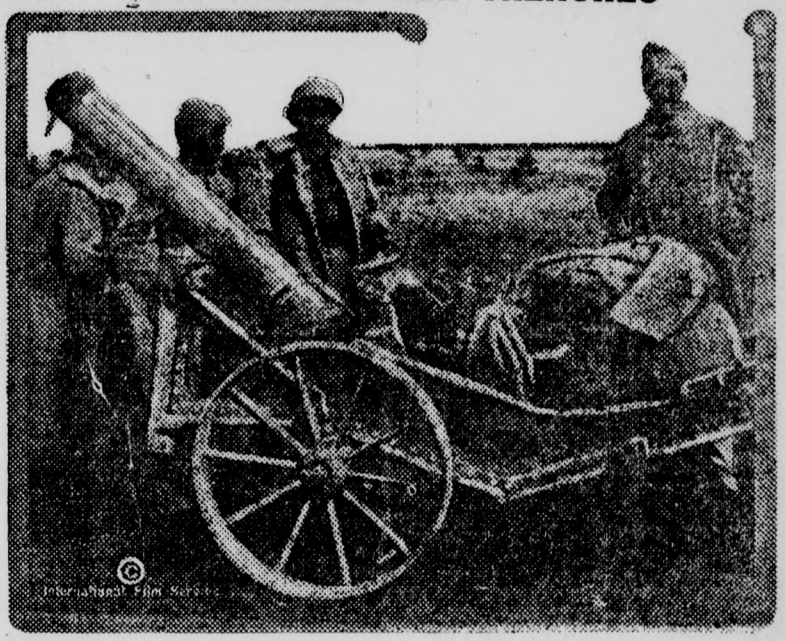
"The war-profits does and for safety must tax all excess profits at lower and graduated rates."

The above extract from Secretary of the Treasury McAdoo's testimony before the House Ways and Means Committee gives his differentiation between war-profits and excess profits taxes and explains his position in urging upon Congress an excess-profits tax with an alternative war-profits tax in the forthcoming revenue legislation.

To the average citizen, Secretary McAdoo's position seems well taken. Most small and local corporations are capitalized at an actual valuation. Many of the very large corporations are greatly overcapitalized; the stock of some of them has been repeatedly watered. With only an excess-profits tax a corporation earning ten per cent on grossly watered capital will pay the same tax as another corporation not overcapitalized earning ten per cent on the real, actual valuation of the money and property invested in its business. The profits of the first corporation might be 30 per cent on its actual valuation, and it is to cover such cases that a war-profits tax is urged.

As many of these large corporations are engaged in Government work and drawing huge sums from the United States, it seems particularly just that they should pay taxes on the same actual basis as corporations not overcapitalized. A tax that taxes equally a 10 per cent profit on watered capital and a 10 per cent profit on unwatered capital is not equal and uniform and scarcely just.

THIS WRECKS HUN TRENCHES



This 155-milimeter trench cannon is the grandfather of all the small trench artillery. The Germans at first had much superior small guns for trench smashing at short range, and life in British lines in Flanders was made miserable by the Hun "minenwerfers." Then the Stokes trench mortar was taken to France to make things hot for Heinie. The French gun shown above is Fritz' worst hate. Your share in the Fourth Liberty Loan will help turn the tables on the Boche.
